

H_hammam è un innovativo bagno turco freestanding o a muro con doccia integrata dalle prestazioni particolarmente performanti. È proposto in diverse finiture di serie e in versione grezza da rivestire. Presenta una dotazione completa con generatore di vapore, rubinetteria in acciaio inox AISI 316L, soffione, cromoterapia, sistema audio e ciellino in Corian con sistema anticodensa. Strutturalmente si compone di un insieme di setti di alluminio composito, leggeri e di facile installazione. H_hammam è disponibile in 2 modelli - con ingresso laterale e con ingresso centrale - configurabili in diverse composizioni grazie all'inserimento di ampie superfici vetrate e in tutte le tipologie (freestanding, parete, angolo, nicchia). Le dimensioni variano da 120x100 fino a 240x120 cm.

H_hammam is an innovative highly performing steam bath, available both freestanding or placed against the wall, with integrated shower. It is suggested in several standard finishes or to be clad on site. It is provided with steam generator, taps in stainless steel AISI 316L, shower head, chrome-therapy, audio system and Corian ceiling with anti-condensation device. Its structure consists of technical walls in composite aluminum, light and easy to install. H_hammam is available in 2 models - with side and central entrance - which can be combined with glass walls, and in all typologies (freestanding, wall, corner and niche). Its dimensions vary from 120x100 to 240x120 cm.
